

Inspiring Teaching practice example

I know who I am - online

Author	Gabriella Canciani - Italy
Title	I know who I am - online
TET-SAT Area	Digital Citizenship
Number and name of the illustrated competence	<p>Question 26. Creating, adapting and managing one or several digital identities and guiding students</p> <p>Question 27. Actively protecting personal data, respecting others' privacy and guiding students in this respect</p>
Estimated level for this competence	Proficient
Learning outcome(s) associated with it	Awareness of digital dangers and possible online safety measures, knowledge of digital reputation, how information can be used and manipulated
Type or name of ICT used	<ul style="list-style-type: none"> • http://www.social4school.eu/ • http://www.generazioniconnesse.it/site/it/home-page/ • https://haveibeenpwned.com/ • https://password.kaspersky.com/it/
What you do that meet this level	Students experiment social network with the simulation of Social4school; using the website Generazioni connesse, more specifically the Supererrori (wordplay: superheroes + mistakes), we reflect on the information they are sharing through their words and the dangers those words can bring (also watching 2 YouTube videos). Then we check their emails and test their passwords using Haveibeenpwned and Kaspersky password check, working on elaborating safer password and reflecting on the estimated time they need to be breached. After these activities we reflect on our awareness of the information we are choosing to share and how strong our protection is.

<https://www.youtube.com/watch?v=qYnmfBiomlo> – spot belga sui social network, Youtube video about information people share on social network not being aware of their availability to everyone

<https://www.youtube.com/watch?v=-xDDHuSFHD4> – Le faremo sapere, Youtube video about online reputation

Draft actions to move to the next level

Working on rules to create safer passwords, checking the rules about privacy of the social network we are interested in using for school, setting different emails for different purposes – private use, school/work
