<b>Estimated level for this competence</b>	<b>Beginner</b>
<b>Learning outcome(s) associated with it</b>	Checking in a quick and cooperative way what students I know about the topic before starting it. It is an attractive tool to detect previous knowledge and to set the starting level.
<b>Type or name of ICT used</b>	Padlet
<b>What you do that meet this level</b>	I use Padlet to get the attention of my students about the task. Before using Padlet I used to write down the list of previous vocabulary on the blackboard what was quite boring.
