

Inspiring Teaching practice example

Use of Edmodo and google form quizzes

Author	Eirini Dioudi - Greece
Title	Use of Edmodo and google form quizzes
TET-SAT Area	Digital Content Use and Production
Number and name of the illustrated competence	Question 15. Teachers' capacity to integrate ICT-based productivity tools for the creation of content
Estimated level for this competence	Proficient
Learning outcome(s) associated with it	checking in a quick way what students learned during one lesson, which are the main difficulties in the specific lesson
Type or name of ICT used	Edmodo, Google form quizzes
What you do that meet this level	I use Edmodo to organize my lessons. I upload the lesson's presentations and all the assignments I want my students to complete. They also upload their assignments and any question that can be answered by me or their classmates. Sometimes I upload google form quizzes. They can answer them at school or at home and check right/wrong answers and their score after finishing the quiz. We discuss in the classroom all together the result's synopsis and graphs and focus in the questions they didn't understands.

Draft actions to move to the next level

Collaboration with colleagues to exchange new ideas and being a member of groups and attending MOOC's. Also exchange ideas with my students and let them express their opinion in how ICT will help them learn more effectively
