

# Inspiring Teaching practice example

## Using Scratch to teach coding

<b>Author</b>	Snežana Bogavac Mihajlović
<b>Title</b>	Using Scratch to teach coding
<b>TET-SAT Area</b>	<b>Digital Content Use and Production</b>
<b>Number and name of the illustrated competence</b>	<b>Question 17.</b> Teachers' knowledge, understanding and use of programming languages
<b>Estimated level for this competence</b>	<b>Capable</b>
<b>Learning outcome(s) associated with it</b>	coding, art, music, creation (Scratch)
<b>Type or name of ICT used</b>	Students explore web on certain criteria
<b>What you do that meet this level</b>	For coding in Scratch I have a studio for every class and it is the place that students post their projects, comment and remix other. Studio at Scratch platform is useful for me because I have a way to communicate with students and can give them feedback instructions. We have project at eTwinning platform were they are members and create projects and other post at TwinSpace.
<b>Image or link to the example</b>	<a href="https://informatika1212.wordpress.com/2017/11/13/evropska-nedelja-kodiranja/">https://informatika1212.wordpress.com/2017/11/13/evropska-nedelja-kodiranja/</a>
<b>Draft actions to move to the next level</b>	I want to include formative assessment more.
