

Inspiring Teaching practice example

Using Padlet and Popplet in ICT lessons

Author	Rodoula Sampson Savva – Cyprus
Title	Using Padlet and Popplet in ICT lessons
TET-SAT Area	Digital Pedagogy
Number and name of the illustrated competence	Question 5. Designing collaborative learning activities with ICT
Estimated level for this competence	Capable
Learning outcome(s) associated with it	Checking in a quick way what students know before the lesson, getting students more interested about the lesson. In that way I could built on their previous Knowledge. After, that students use Popplet to argue.
Type or name of ICT used	Padlet Popplet
What you do that meet this level	I use the “Padlet” sometimes at the beginning of my lesson. I send students the link to a padlet and they found out the topic of today’s lesson. They use the tool and they write their opinion or their Knowledge about the subject. In that way, via the app, we collect the previous Knowledge of every student in the class, which is extremely important. After that, they use popplet and they create a mind map (collaboratively) saying the advantages and disadvantages of the idea given.
