

Inspiring Teaching practice example

Using the online environment Moodle to teach

Author	Lorenzo Castilla Mora
Title	Using the online environment Moodle to teach
TET-SAT Area	Digital Pedagogy
Number and name of the illustrated competence	Question 9. Teachers' and students' use of virtual learning environments (VLE) (e.g. Moodle) and Web-based tools (e.g. document sharing tools and Cloud-based services)
Estimated level for this competence	Expert
Learning outcome(s) associated with it	<ul style="list-style-type: none"> • Organise and show the materials and apps that students need throughout the course in a single place • Assess the tasks • Grade the students
Type or name of ICT used	Moodle
What you do that meet this level	<p>I organised the materials and apps that students need throughout the course and the grades in the same place. I include in the Moodle course many different materials such as links, videos, presentations, tasks... Students have all the material in a place and I can follow the results of every student and compare results between students. I also evaluate some parts of the subject with questionnaires in Moodle. I create the questions for the questionnaire using the same environment.</p> <p>I am a kind of Moodle manager in my school (create the course, enrol students, create some activities and questions, etc)</p>
